

PARAFLU 11 READY Cod. 1674

DESCRIPTION

A ready to use Ethylene Glycol based protective fluid for radiators.

PARAFLU 11 EUROPEAN FORMULA is a protective fluid for cooling systems of motor vehicles, commercial and industrial vehicles, tractors and earth-moving machinery and of scooters and motorcycles.

CHARACTERISTICS

PARAFLU 11 EUROPEAN FORMULA is a protective fluid for cooling systems, developed for best results. The formula is already mixed with de-ionised water (50%), in order to obtain the optimal protection against the action of:

- Freezing (down to external temperatures of -40°C);
- Corrosion;
- Limescale;
- Boiling (circuit temperature up to $+125^{\circ}\text{C}$);

The protecting ability of PARAFLU EUROPEAN FORMULA has exceeded all the laboratory tests on the materials used for the construction of the cooling system.

ADVICE ON USE

The frequency of the oil change should be as indicated by the Manufacturer (every 2 years or kilometres) when restoring the level of the fluid, the same product must be used.

Do not dilute with water.

Do not mix products of different brand or origin.

RECOMMENDED BY

Maserati, Iveco, Laverda, Hesston Braud, Benati.

APPROVED BY

Piaggio.

TECHNICAL DATA

ASTM D 3306 Type 3, ASTM D 6210 Type 3-FF
